ADDENDUM TO CONSENT FOR INDIVIDUAL PSYCHOTHERAPY:
CONSENT FOR TELE-PSYCHOLOGY

The practice of tele-psychology in Maryland is regulated by the Board of Examiners of Psychologists. To be in compliance, we are bound by the following:

1. We will use a video platform called **Doxy.me** which provides a secure and private tele-psychology connection that complies with federal and state privacy laws.
2. If there is a technical failure during a tele-psychology session, I will contact you by telephone. Please provide that number here _____.
3. Before starting a tele-psychology session we must identify all individuals present at each location and confirm that they are permitted to hear your health information. For all tele-psychology sessions, I will either be alone in my office or in a room in my home that has a door and masks sound with a white noise machine.
4. We must establish a safety protocol to be used in the case of an emergency. I must know where you are so that I have contact information for emergency services at the your location. At present, I am licensed to provide services to persons who are physically located in the State of Maryland.

By signing, you indicate that you have read and understand this document and give consent to participate in tele-psychology with Dr. Ann-Marie Codori.
